FR-05	Drill-through from Region card to Region detail page	Should
FR-06	Discount band vs margin scatter	Should
FR-07	Export to PPT/PDF	Could

2. Data Requirements

Field	Type	Source
OrderID	string	Sales system
Date	date	Sales system
Region/Channel/Segment/Category	string	Master data
Quantity/UnitPrice/Discount	numeric	Sales system
Revenue/Cost/Profit	numeric	Derived

3. Process Flow

Source → Staging (SQL) → Cleansed Fact → Power BI Model → Dashboard.
Daily refresh at 06:00 local; failure alert to Sales Ops.

4. Acceptance Criteria

- All KPI values reconcile to source SQL within $\pm 0.1\%$.
- Slicer interaction updates all visuals in $< 2s$ on 100K rows.
- Forecast line is visible only when Year filter includes the latest 12 months.
- Drill-through carries the active filter context.
